

HOSPITAL MEDICINE

Henry Ford Allegiance Health Hospital

Independent Hospital Physicians (IHP) is a team of board-certified internal medicine physicians dedicated exclusively to the care of patients admitted to Henry Ford Allegiance Health Hospital. We work as a team with primary care and referring physicians to provide your patients the best possible care and services during their hospital stay.

24/7 Compassionate Inpatient Care

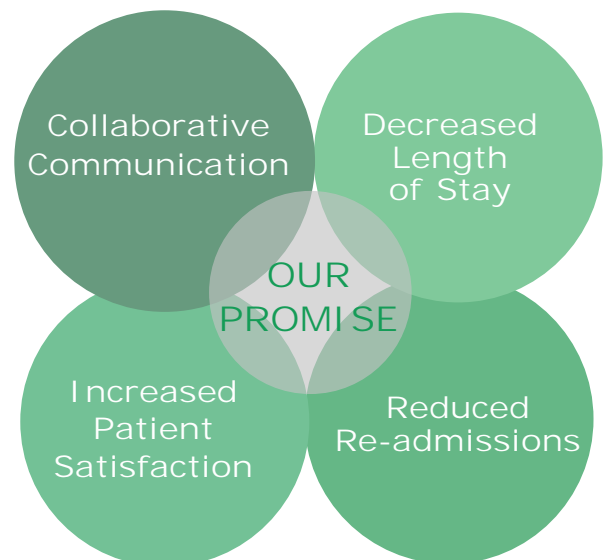

Our team cares for your hospitalized patient 24/7, 365 days-a-year. We coordinate patient plans of care and organize communication among all physicians, meet with patients and family members, follow-up on test results, and answer questions. of care.

Support Primary Care Physicians

IHP is your partner for inpatient hospital care. We communicate as one care team, providing timely documentation of the inpatient stay, managing continuity of care and supporting your relationships with patients and consultants.

Care Managed to Quality Initiatives

Accountable care is the best care. We provide safe, effective care managed to quality initiatives. We help to reduce patient lengths of stay and treatments costs, improve patient outcomes, reduce readmission rates, and positively affect quality of care and patient satisfaction. We also facilitate access to post-acute care resources.
